

**MT. SAN ANTONIO COMMUNITY COLLEGE DISTRICT
GOVERNING BOARD MEMBER**

NAME: JOHN MENDOZA

OCCUPATION: Board Member Three Valleys Municipal Water District

California is facing a economic crisis of great proportions. Working folks in the many cities served by Mount San Antonio Community College are in dire need to be retrained for new careers in a employment environment that has changed dramatically. Unfortunately access to the educational opportunities may not always be available for many community members in the district who want to attend MTSAC.

State law does not mandate that MTSAC officials recruit students and community members with in the district and so, consequently; over the past few years student enrollment from out side the district of MTSAC has escalated significantly depriving many community members in the district a opportunity to attend MTSAC and achieve personal goals.

Community members in the district over the past years have approved voter property tax bond measures that have been responsible for the rebuilding and modernization of MTSAC into a great community college over the past 60 years.

With your vote I pledge to stay a course that will utilize all resources to increase the student enrollment with in the district and make educational services available to all.

Vote for John Mendoza
