- Reduce the number of schools that are academically under performing.
- Increase the number of fundamental schools.
- Increase the number of high school graduates.
- Increase the number of students passing the high school exit exam.
- Increase the number of students attending college.
- Increase English and math instructional hours at all grade levels.
- Increase the number of students attending pre-school, summer school, after-school and weekend tutoring programs.
- Restore special education services.
- Support, attract and retain quality faculty and staff.
- Increase parental involvement.
- Build partnerships with the community, businesses and private organizations.
- Provide the highest level of public safety on campus.

I believe in giving back to the community. I am a member of the Santa Ana Kiwanis Club. I have helped raise funds for charities, student scholarships and school programs.
