

REBUTTAL TO ARGUMENT AGAINST MEASURE U

TAKE CONTROL OF YOUR FUTURE

Don't Be Misled by the Unsupported Fears of the Opponents!

The **truth** about Rossmoor incorporation is simple: **it's not just possible, it's overwhelmingly the best decision for Rossmoor!**

- The County **can and said it will reduce services to Rossmoor** if we don't incorporate, because they're paying \$592,000 more than they're collecting.
- The RCSD can take over some, but not all, future services, but **at a cost to taxpayers in excess of the Utility Tax**, without the benefits of being a city.
- A new City means **LESS bureaucracy**—it eliminates County municipal infrastructure.
- The Utility Tax is a well recognized municipal financing tool, **used by both Seal Beach and Los Alamitos.**
- The new City will receive significantly **enhanced** law and traffic enforcement, as well as improved code enforcement, permitting and animal control.
- With the 7% Utility Tax, an average of just \$16.00 a month per household, the new City will have **fully adequate and generous 40% plus reserves and 10% contingencies.**
- Rossmoor residents **WON'T** pay twice for the same services. The County is **transferring our property taxes and other revenues to Rossmoor.**
- After incorporation, we won't be liable for any new taxes unless we vote for them. And we don't need them. **Four leading, independent financial experts** have said so. **The opponents have no facts or financial authorities to support their fears.**

VOTE YES ON INCORPORATION AND, TO AVOID A SPLIT VOTE, BOTH UTILITY TAX MEASURES SO ROSSMOOR CAN FINALLY TAKE CONTROL OF ITS FUTURE.
