

REBUTTAL TO ARGUMENT AGAINST MEASURE O

Don't be misled by opponents who are misinformed.

The Westminster School District has not gone to the voters for support in nearly 60 years. In the 1950's voters passed a local bond that built most of the schools in the District. Since that time, the District has done its best to maintain schools with limited resources.

Some of our classrooms are so old that windows no longer open, forcing teachers and students to teach and learn in classrooms with poor ventilation and air quality.

With our schools facing **DEVASTATING BUDGET CUTS** from Sacramento there is no money to make necessary repairs.

YES on O makes essential health and safety repairs to ensure our schools last another 60 years.

YES on O helps retire past loans used to improve schools, ensuring **MORE MONEY IS AVAILABLE FOR OUR CLASSROOMS**.

By upgrading classrooms, science labs and technology, the **BEST TEACHERS** will want to teach in our schools because they are able to work in safe and healthy classrooms and have greater access to new technology.

YES on O is FISCALLY RESPONSIBLE. Measure O meets all the fiscal accountability protections required by the **OC TAXPAYERS ASSOCIATION**.

YES on O costs the average homeowner 20 cents per day, or about two Starbucks drinks per month.

Please Join Teachers, Parents, Public Safety Officials, Local Business Owners, members of the Chamber of Commerce and Boys and Girls Club, and other Community Leaders and Organizations in voting **YES on O** - for Our local schools.
