The California Legislature has reformed school financing, giving local school boards authority to determine how your taxpayer dollars are spent. The residents of Anaheim deserve a trustee that is fiscally responsible and focused on delivering a quality education for each student. I have extensive knowledge of the financial operations of the Anaheim Union High School District and its operational procedures. With hands on experience in the classroom, school oversight and non-profit governance, I am uniquely qualified to bring a fresh perspective and real accountability to the Anaheim Union High School District Board. Thank you for your vote of confidence on Election Day.
