

**CENTRALIA SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

HENRY CHAROEN

Councilman/Businessman/Teacher

As a father of two children that will be attending a Centralia School, I care deeply about the future of the Centralia School District. If elected, I'm committed to improving the high quality of education, retaining our outstanding teachers, and strengthening the district's financial stability. I will protect what we have worked so hard to achieve, while preparing us for upcoming challenges. I'm passionate about improving our children's future and I'm committed to serving our students.

As a teacher at UCI, I would bring my classroom experience and knowledge to better serve the needs of our students. I'm also a Business Director at Health Management Systems. I earned an MBA from UCI and an engineering degree from USC.

I have the leadership experience needed for this position:

- City Councilmember
- Public School Liaison Committee Member
- Former Director, Orange County Library Advisory Board

As a Councilmember, I helped secure \$30,000 for a Centralia School to fund a desperately needed item. I will continue to fight for Centralia Schools if I get elected.

Centralia School District is a great area and I'm extremely proud to live here. I care about what happens in our community and I want to make a difference.
