

**CENTRALIA SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

IRV TRINKLE

AGE: 74

Incumbent

I am pleased to report that Centralia School District has survived the State financial crisis of the past five years. District wide furlough days, with layoffs of some certificated and classified staff were necessary to maintain fiscal solvency. Increased funding is allowing us to better serve our students by rebuilding our entire staff. A committee of your neighbors, made recommendations as to where the new increased "LCAP" funds are to be best utilized.

In spite of previous cutbacks, student test scores continue to improve with four schools receiving county or state recognition. Our teachers are well versed in the "Common Core" concept and they are excited to be sharing it with our students.

My background and thirteen years of experience as your elected Governing Board member allow me to provide expertise and insight to an infrastructure upgrade program along with all Board requirements and actions. I am conservative and demonstrate integrity when utilizing public funds.

Campus safety, fiscal solvency, preservation of our health clinic, and the best education for our students remain my primary goals as your elected representative. I am proud of my twenty-three years military service and I am proud to be your Centralia Governing Board representative.
