

STEVE A. NAGEL
City Council Member

AGE: 64

It has been my honor to represent you on the Fountain Valley City Council for eight years. Having more than 37 years of Fountain Valley Fire Department, community service, and public policy leadership experience brings a unique understanding of our diverse community, your neighborhoods, and the local businesses that keep Fountain Valley "A Nice Place to Live."

I will continue to be accessible and committed to listening to you.

My priority is fiscal responsibility, while maintaining highly trained and responsive police and fire departments, public works, including recreation and community services you enjoy and deserve.

I would be honored to represent you for one more term to assure continuity and stability during current fiscal challenges requiring a vision for future planning, measured growth and thoughtful development stimulating and ensuring economic sustainability.

Serving on the council has been gratifying, yet challenging. I support and participate in the City's strategic planning process, setting priorities and goals, improving efficiency and promoting fiscal accountability. Serving on the council since 2008, the budget has been cut more than \$5 Million and added one additional paramedic unit without cutting essential services.

I sincerely appreciate the consideration of your vote, Tuesday November 8, 2016.
