

**KIM CONSTANTINE**

**AGE: 50**

Business Woman

As a second time Candidate for our City Council, I believe our city must operate within its means, just as we do as residents and business owners. It is irresponsible for a city to place financial burdens on our residents and businesses in the form of tax increases and new taxes and fees. To achieve financial stability, all wasteful spending must be eliminated and replaced with that of careful and necessary.

I have deep roots here and am a proud member of our Chamber of Commerce, Woman's Club, Historical Society, Community Foundation, and Friends of the library. I previously served on the Chamber of Commerce Board of Directors and represented the local magazine.

I love to meet and connect with residents and businesses and am happy when you share with me comments, concerns, and ideas about this great city.

You will continue to have my time and energy as a fully committed Council Member as I remain accessible at 714-335-2280. Thank you for your support and vote so that I may best represent you and ensure Fountain Valley remains a prosperous place to do business, as well as a nice and desirable place to live for our residents and future generations.
