

**CHERYL BROTHERS**

City Council Member

It has been my honor to serve as your Mayor in 2016.

Experienced leadership matters now more than ever.

As a councilwoman, I provide experienced fiscal leadership in tough economic times. My conservative oversight of city business has protected Fountain Valley residents' best interests.

With the State's money grab \$116 million from Fountain Valley's coffers, it has forced the council and city staff to make deep budget cuts since 2007. I am prepared to continue to make tough choices to manage and protect the city's existing resources and services.

We need a thriving business community, and my land use experience as a former Planning Commissioner will help guide the city in a way that will attract new businesses and protect homeowner rights.

My regional involvement reminds me each day that Fountain Valley continues to be a city of which we can be proud: where individuals have rights, our family environment is protected, and business can prosper. I want to insure that it stays that way.

I provide the best experienced leadership to manage the solutions to our economic problems and to keep Fountain Valley "A Nice Place to Live."

Vote for integrity, experience and sound leadership.
