

DIANE SINGER

University Professor

Student learning, collaborative governance, and fiscal responsibility will be my top priorities as your new Rancho Santiago Community College District Trustee.

My record as a former Orange Unified School District Board Member proves that I am a fiscal conservative who is not afraid to vote against wasteful spending and frivolous decision-making.

Flawed backroom deals, like the one with Saudi Arabia that was supposed to solve RSCCD's severe fiscal challenges, are not the answer. Raising taxes is never the best way!

I will make ethics, transparency and accountability basic requirements when we search for a new chancellor. Million dollar lawsuit payouts resulting from malfeasance and mismanagement must never happen again.

You can count on me to implement the strict fiscal management RSCCD taxpayers deserve. That is why I won't accept the District-provided \$32,000 healthcare package taken by some Trustees.

I pledge to stop any hint of corruption and special interest politics from creeping into RSCCD leadership. I promise to help students develop a higher education pathway that leads from high school, through community college, to the best colleges and universities.

With your vote we can ensure that RSCCD students always come first!
