

**DANA ROHRABACHER**  
U.S. Representative, 48th District

**REPUBLICAN**

As father to 13 year old triplets, my job is to watch out for the American people, especially those I represent here in Orange County.

It's vital the U.S. has policies that promote economic growth and job creation. For that reason, I've been stalwart in my support for lower taxes, cutting federal spending and reducing burdensome regulations.

Illegal immigration threatens our communities and our country. I oppose amnesty and have led the fight to control our borders.

As a Foreign Affairs Committee senior member, defeating radical Islamic terrorism is a primary goal and while criticized for it, I advocate cooperation with Russia to accomplish this.

As a Senior member of the Science Committee, I've shaped US space policy, insuring a major role for companies like SpaceX, keeping our country the technology leader for good jobs, a better life and cleaner environment.

Closer to home, I've co-sponsored legislation to stop sober living homes in our neighborhoods by empowering local people to control location of such facilities.

My amendments to FAA legislation insists planes fly higher and community impact of air traffic noise be given more priority.

The Republican Party endorses me. I've received Guardian of Seniors award and top ratings from Citizens Against Government Waste, National Taxpayers Union, and pro-family organizations. My seniority and working knowledge are needed now more than ever.

It has been my honor to serve you in Congress and I ask for your vote. Visit [www.connectwithdana.com](http://www.connectwithdana.com) or call 949-371-6750 to connect with me.
