Donald Trump is moving us backward and it’s time for new leadership.

My name is Harley Rouda. I am a technology entrepreneur, business leader, and attorney running for Congress to move us forward.

I am endorsed by thousands of California Democrats and respected leaders including the California Nurses Association, Congresswoman Loretta Sanchez, Congressman Pete McCloskey, Attorney General Bill Lockyer, Costa Mesa Mayor Katrina Foley, Laguna Beach Mayor Toni Iseman, Irvine Mayor Sukhee Kang, Ocean View School Board President Gina Clayton-Tarvin, business leaders, teachers, and organizations representing working families including locals for IBEW, IUOE, IUPAT, UA and USW.

I have been active in numerous charities that have fought homelessness, domestic abuse, gun violence, discrimination, and human rights violations. I have worked to save key military jobs while addressing veterans’ transitional needs. I have long supported Planned Parenthood, children’s healthcare and education, as well as access to affordable higher education.

In Congress, I will stand up for Orange County by working with community leaders to address homelessness and affordable housing while investing in community infrastructure projects.

I have created thousands of good paying jobs, and in Congress I will fight to expand job training opportunities and access to education to create even more jobs here at home. I will work to make Medicare accessible for everyone, fight climate change and off-shore drilling, and invest in renewable energies like wind and solar.

In Congress, we will move forward by working to find common sense for common ground.

I humbly ask for your vote. Learn more at www.harleyforcongress.com.
