

JOSH NEWMAN**DEMOCRATIC**

State Senator District 29

Sour grapes. That's what it's called when someone loses and then tries to change the rules. That happens every day in President Trump's Washington – and we can't let it happen in Orange County.

In 2016, we elected State Senator Josh Newman. As a United States Army veteran who served with honor, community leader and successful businessman, Josh has stood up for us in Sacramento. Now, they're trying to change the rules and remove him from office with a recall vote — wasting \$1 million in taxpayer money.

This recall is a partisan power grab started by a San Diego politician whose career was halted because of sexual misconduct. Extremists and special interests want to overturn the results of the 2016 election and replace our democratically elected State Senator.

The recall was put on the ballot based on lies. That's why its backers were investigated for fraud. They said the recall would repeal the gas tax, but it does no such thing. It simply steals your vote from the 2016 election.

If the recall succeeds, they'll do it again – and again. In Nevada, two recalls are going on now and nine more are planned. That's millions of taxpayer dollars down the drain, resulting in partisan warfare and political gridlock. Don't let that happen here.

State Senator Josh Newman is a bipartisan leader serving our community with integrity, fighting for veterans, increasing funding for local schools, reducing traffic and addressing rising housing costs.

Keep Senator Newman on the job. Vote No on the Recall.
