

LING LING CHANG
Small Business Owner

REPUBLICAN

As a City Councilmember, Ling balanced every budget, built a \$17 million reserve, increased funding for law enforcement and never raised taxes.

Ling cut her own council pay and benefits and used her own money to travel to Washington to develop solutions for the 57/60 freeway interchange congestion. In the Assembly, Ling earned a 100% rating from the California Taxpayers Association because she helped kill \$29 billion in higher taxes.

Ling coauthored the "Affordable Gas for California Families Act," to save consumers up to \$.76 per gallon.

By writing a new law pioneering the use of new technology, Ling helped save millions by providing essential government services at lower costs.

She fought to make government more transparent to expose the corruption that runs deep in Sacramento.

Ling joined with law enforcement to create a new law to freeze the assets of criminal organizations involved in dealing drugs, human trafficking and child pornography.

By working with Women Escaping a Violent Environment, she helped protect domestic violence victims by making it more difficult for abusers to stalk women.

In the Senate, Ling will continue her fight to keep taxes down and push to prosecute corrupt legislators to the full extent of the law. She will use her education experience to ensure our children attend the best schools possible and work to get health care and prescription drug costs under control.

Ling's record has earned her support of U.S. Representative Ed Royce and the California Republican Party.
