

**RICHARD B. RAMIREZ**

Deputy Assessor

As your next Orange County Assessor, my top priority is making your government effective and responsive to your concerns. As a proven leader serving faithfully with the Assessor's Office for 21 years, I have dealt with property owners and their various issues and have gained tremendous knowledge of county government operations through interacting with other agencies and departments. As President of the Orange County Appraisal Society, I have promoted innovation and excellence in property appraisal and assessment administration through professional development. As Manager of Assessment Appeals, I have implemented practices to help taxpayers achieve fair assessments without costly litigation. I have a track record of great leadership and experience to be your next Assessor.

My mission as Assessor is to serve you with integrity, transparency, and competency you deserve. My goal is to have the Assessor's Office work for you, using technology as a tool to better serve you, and create a data program that is readily available to you. I will create a Community Outreach Program that includes: seminars and informational videos to reach all citizens and business owners. Finally, I will make Cyber Security a priority to ensure that your private information is protected.

I humbly ask for your vote!
