

**IMPARTIAL ANALYSIS BY COUNTY COUNSEL
SAVANNA ELEMENTARY SCHOOL DISTRICT
MEASURE G**

The California Constitution provides that school districts may issue general obligation bonds for the construction, reconstruction, rehabilitation or replacement of school facilities, including the furnishing and equipping of school facilities or the acquisition or lease of real property for school facilities, with the approval of 55% of the voters of the district, voting at an election for that purpose. The California Constitution further provides that the bond measure must include a requirement that the bond proceeds will be used only for the permitted purposes and other requirements designed to ensure accountability.

The Savanna Elementary School District has proposed to the voters that general obligation bonds be issued in an amount up to \$28,750,000 and that *ad valorem* taxes be levied upon taxable property in the District to repay the bonded indebtedness. The measure provides that proceeds from the sale of the bonds will be used for the construction of school facilities and supporting infrastructure, including: the repair, renovation, and modernization of classroom, library, and school support buildings; to improve access for students with disabilities; to upgrade fencing, walkways, and lighting for school safety and security purposes; to repair or replace plumbing and restrooms; to expand parking lot and pick-up/drop off zones; to repair or replace aging/deteriorated roofs; to replace deteriorated paving, and playground facilities for safety and code compliance; and to upgrade or replace District-wide server and related technology equipment, software, and infrastructure.

The measure provides that it is also for the purpose of making the District eligible for state matching funds.

The measure provides that a citizens' oversight committee will monitor the expenditure of bond proceeds to assure they are spent only on school and classroom improvements. The measure further provides that bond proceeds will not be used for teacher and administrator salaries and other school operating expenses.

The Board of Trustees of the District has called the election for the purpose of submitting the measure to the voters within the District. If 55% of the voters of the District voting on the measure vote yes, the District may proceed to sell the bonds and levy the related taxes as estimated in the Tax Rate Statement. A no vote on this measure will disapprove the issuance of the bonds and the levy of the taxes for such bonded indebtedness.

Approval of Measure G does not guarantee that the proposed project or projects in the school district that are the subject of bonds under Measure G will be funded beyond the local revenues generated by Measure G. The school district's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.
